

## VIRTUAL peer learning meeting

### Immigration and immigrants and social progress

**Time:** 27. May, 10:00 AM – 11:30 AM (CET)

#### **Objective:**

Migration and the integration of migrants are two separate aspects of the overall migration topic. The session will focus on the integration of migrants and in particular on the issues covered by the 2010 Zaragoza set of indicators and the extensions to it that were discussed in the 10 years hence. Suggestions will be made as to which of these indicators can be amenable to inclusion in the EU-SPI given the availability, reliability, and topicality of data at a regional level. In the discussion, we hope to collect opinions on the best way forward regarding sound, informative, and meaningful regional-level indicators of the integration of migrants. Regional representatives and researchers present their experiences in the intersection of social progress and migration, in measurement and policy making.

09:45 (before the meeting)	<i>Technical checks, the online meeting room will already be open</i>
Start: 10:00 15 min	<b>Welcome</b> by Tonia Davakeraki, welcome, introduction to the agenda, technical explanation Tour de Table or introduction through the Facilitator who describes who is here today Introduction of the Speakers
